

PRECISION IN PERIODONTICS: SIMULATION-BASED TRAINING IN LASER TECHNIQUES AND FLAP INCISIONS IN BIOLOGICAL MODELS

 23 June, 2026

 08:30 AM - 05:00 PM

 Level 3, MAHSA International College

Workshop Highlights

-  LASER techniques(gingivectomy, crown lengthening, frenectomy)
-  Flap techniques(Apically displaced flap, Kirkland flaps, flaps in implants)
-  Simulation on fruit models
-  Caprine Jaw Hands-on training

**CPD POINT APPLIED:
PENDING FOR APPROVAL**

**Refreshment
Provided**

Speakers

Dr. Prebha Manickam,
Asst. Prof & Head in charge,
Department of Periodontology

Dr. Tina Varghese
Asst. Professor
Department of Periodontology

Time	Activity
0845-0900	Registration
0900-10.00	Lecture: Basic Principles & application of LASER
10.00-1030	Tea break
1030-1130	Lecture: Basic Principles & application of Periodontal flap surgery
11.30 - 1.00	Simulation exercises for LASER-assisted techniques and Periodontal flaps
1300-1400	Lunch
1400-1500	Hands-on for LASER-assisted techniques on goat jaws
1500-1630	Hands-on for Periodontal flaps techniques on goat jaws
1600-1700	Q&A

Category	Fee (HALF DAY)	Fee (Full DAY)
Student	RM150	RM300
Alumni	RM400	RM800
Dentists	RM500	RM1000

20 SEATS AVAILABLE
